Canadian Bioinformatics Workshop Series

Awards available for 2012 CBW workshops

Informatics and Statistics for Metabolomics

Dates

- May 3-4, 2012 in Toronto, Ontario

Faculty

David Wishart

Course Objectives

The workshop will cover many topics ranging from understanding metabolomics technologies, data collection and analysis, using pathway databases, performing pathway analysis, conducting univariate and multivariate statistics, working with metabolomic databases and exploring chemical databases. Participants will be given various data sets and short assignments to assist with the learning process.
